Feather & Furry Friends

Feather and Furry Friends features sweet little bunnies and happy ducklings at play in the flower-filled meadow where they abide. This adorable collection is the perfect choice for decorating a nursery. You'll want a crib quilt, bumper pads, a crib skirt, a valance, and cushions for the rocking chair. Need a shower or baby gift in a hurry? What could be faster than framing the master print with the border stripe and binding it with the little check! One of the playful border stripes would also be just right along the hem of a valance. Choose from the pink prints for a girl, and the blue prints for a boy, the yellow and green if you're still guessing, or just have fun and mix up all of the nicely coordinated colorways. The small floral, the plaid, and the two tosses are just the right scale for little girl's dresses and play outfits, and matching outfits and quilts for their dolls! A quilt pattern that you can kit will be available for this collection. .
